4400006932 AND 4400006933**

**RETAINER CONTRACTS FOR RIGHT OF WAY ASBESTOS INSPECTION AND
ENVIRONMENTAL SERVICES FOR PROJECTS STATEWIDE**

QUESTIONS AND ANSWERS

- Q1** On page 4, under Minimum requirements Asbestos Inspections, the RFQ states a Minimum of one LDEQ Accredited Asbestos Worker will be required. What type and percentage of projects do you anticipate will require this accreditation? Our company will need to team with another company to provide this accreditation; however, we are unsure of the percentage of work, if any, will require an accredited asbestos worker.
- A1** **The type of projects requiring an asbestos worker are projects in which Asbestos is found and the Right of Way Section must closely oversee its removal. We anticipate the percentage of projects which will require this accreditation are less than 5%.**
